

## Business Central functionality package for Chile

Microsoft Dynamics 365 Business Central is a business management solution that helps companies connect their finances, sales, services, and operations to streamline business processes, improve customer interactions, and make better decisions. Combine multiple systems into a single connected application, which brings together your business processes, to save your employees time. Increase efficiency with automated tasks and workflows, all from familiar Office tools like Outlook, Word, and Excel. With this unified solution, get a complete view of your business, with built-in intelligence when and where you need it.
